New Cat® 306 CR Mini Hydraulic Excavator Now Available at Hawthorne Cat
Next Generation Cat 306 CR Mini Excavator Delivers Class-Leading Performance

San Diego, CA -- Hawthorne Cat®, the exclusive Cat® equipment dealer in San Diego, the Hawaiian Islands, and the Pacific Region, announces our entry into the 6-ton class with the Next Generation Cat® 306 CR Mini Hydraulic Excavator.

The new 306 CR model raises performance standards with its leading lift of up to 7,839 pounds and swing boom at a 9.8-foot radius. The mini excavator can be configured with a straight blade, angled blade, or extra tool carrier (XTC) for specific job application needs. Our load-sensing hydraulic system also maximizes travel performance and digging forces to improve cycle times, work productivity, and operator efficiency.

Designed for the optimal operator experience, the Cat 306 CR Mini Excavator is equipped with our Next Generation LCD monitor, displaying easy-to-read data and customizable settings. The machine also provides ground-level access to routine checkpoints to shorten maintenance intervals, decrease service time, and lower repair costs.

“The Cat 306 CR has the same core features as the full line of Next Generation mini excavators in a compact design and new weight class,” says Ross Farmer, Corporate Machinery Sales Manager. “If you’re looking to expand your fleet with a class-leading machine, our Cat 306 CR Mini Hydraulic Excavator is the best choice.”

Contact your Hawthorne Cat Sales Representative at 800.437.4228 for more details.

About Hawthorne Cat

Hawthorne Cat is the authorized dealer for Cat construction and power equipment in San Diego, Hawaii, Guam, Saipan, and American Samoa. Hawthorne sells, rents, provides parts and service, training, and emission solutions to various industries including general building construction, landscaping, marine, paving, and power generation.
