**New Cat® 310 Mini Excavators Now Available at Hawthorne Cat**

*Next Generation Cat 310 Mini Excavators Improve Performance Features*

**San Diego, CA** -- Hawthorne Cat®, the exclusive Cat® construction equipment dealer in San Diego, the Hawaiian Islands, and the Pacific Region, announces new delivery of the Next Generation Cat 310 Mini Excavators, recognized for value-driven improvements in terms of performance, maintenance, and affordability.

With performance and design upgrades, our next gen mini excavators deliver maximum power no matter the job. The 10-ton model features a fixed boom, standard tail swing, and twin blade cylinders to work in a wide range of applications. Heavy-duty main structures, fuel-efficient engines, load-sensing hydraulics, and the exclusive Cat Stick Steer system increase travel performance with higher digging and lifting forces.

Customizable settings also enable hydraulic performance and responsiveness for different operators and applications. Operators can easily switch from traditional pedal and lever steering to joystick control, improving operator comfort and convenience. Routine maintenance check points are also accessible at ground level through the side doors.

“Our Next Generation Cat Mini Excavators were expertly designed to provide our customers with industry-first features to deliver better value,” says Ross Farmer, Corporate Machinery Sales Manager. “If you’re looking to upgrade your heavy-duty fleet with a machine that can do it all, the Cat 310 is the one for you.”

Contact your Hawthorne Cat Sales Representative at 800.437.4228 to learn more about our current special financing offer on new Cat 310 Mini Excavators.

**About Hawthorne Cat**

Hawthorne Cat is the authorized dealer for Cat construction and power equipment in San Diego, Hawaii, Guam, Saipan, and American Samoa.
