### **Hawthorne Cat Announces New Cat 315 Excavators**

*Next Generation Cat 315 Small Excavators Deliver High Performance & Productivity*

**San Diego, CA** -- Hawthorne Cat®, the exclusive Cat® construction equipment dealer in San Diego, the Hawaiian Islands, and the Pacific Region, announces delivery of the new Cat 315 excavators. Our next generation of Cat excavators guarantee higher performance and efficiency with the ability to reach bigger production targets.

The new small excavators offer superior performance in a compact design and 13 percent larger cab for a better working environment. The machines easily maneuver around jobsites and work on slopes with 10 percent more swing torque and 14 percent more drawbar pull. Advanced hydraulics move material with high speed, while providing more control for precise digging depths.

Our Cat 315 excavators are also recognized for increasing productivity by up to 8 percent compared to previous models. Equipped with standard Cat technologies, the 315 improves operator efficiency by up to 45 percent over traditional grading with Cat Grade with 2D system, E-fence, and Payload.

Ross Farmer, Corporate Machinery Sales Manager says, "Hawthorne Cat is committed to raising the bar when it comes to high performance machines." Farmer continues, "Our new Cat 315 excavators do just that by giving you the power and precision for the most demanding applications."

"We now offer cash price and monthly payment options on our most popular Cat machines and models," says Chris Giannaris, Corporate Marketing and Strategy Manager. "Check out these exclusive pricing options for current new inventory on our website."

Contact your Hawthorne Cat Sales Representative at 877.717.9055 for more details.

#### **About Hawthorne Cat**

Hawthorne Cat is the authorized dealer for Cat construction and power equipment in San Diego, Hawaii, Guam, Saipan, and American Samoa. Hawthorne sells, rents, provides parts and service, training, and emission solutions to various industries including general building construction, landscaping, marine, paving, and power generation.
