TAKE ADVANTAGE OF THE EXTRA VALUE BUILT INTO YOUR CAT EQUIPMENT.

Restoring a key component's original performance and durability—plus incorporating product enhancements introduced after it was manufactured — improves the reliability of your machine and greatly extends its productive service life. A Cat® Certified Machine Component Rebuild (CMCR) returns your engines, transmissions, torque converters or final drives to like-new condition, helping you get maximum return on your original machine investment.

A process this extensive requires trained professionals, specialized equipment, stringent quality control and access to the latest technical information. And it's available only through a CMCR performed by trained Cat technicians.

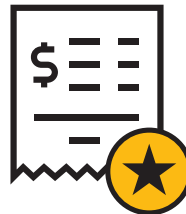

NEW WARRANTY, EXTENDED COVERAGE

Every CMCR program above includes a like-new warranty on all replaced parts. A 3-year/5,000-hour Equipment Protection Plan (EPP) is also added to your rebuilt machine to protect you from unplanned repair costs due to covered defects in Cat material and manufacturer workmanship. And you can choose from multiple coverage options.

Cat Certified Rebuild machines are also eligible for a Cat Customer Value Agreement to help make preventative maintenance a breeze.

REBUILD FINANCING AND PROTECTION OPTIONS

Use your Cat® Card account for a rebuild. The Cat Card is the fast, easy way to pay wherever the job takes you. When you use your Cat Card for a rebuild, you often get access to special offers. And eligible accountholders earn Cat Vantage Points on all qualifying purchases. You can redeem those reward points for Cat® Credits to pay for Cat parts, attachments, services, rentals, future rebuilds and more.

Eligible Cat Card accountholders are automatically enrolled in Cat Vantage Rewards and can earn 1% back in reward points on qualifying Cat Card purchases and even more when shopping with approved online Cat retailers.
